1. ORGANIZATION

Managed Portfolio Series (the "Trust") was organized as a Delaware statutory trust on January 27, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Jackson Square Large-Cap Growth Fund ("Large-Cap Growth Fund"), and Jackson Square SMID-Cap Growth Fund ("SMID-Cap Growth Fund") (each a "Fund" and collectively, the "Funds") are investment companies and therefore follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, Financial Services - Investment Companies. The Large-Cap Growth Fund, and SMID-Cap Growth Fund are each a non-diversified series with their own investment objectives and policies within the Trust. The investment objective of each Fund is long-term capital appreciation. The Funds offer three different share classes - Investor Class, Institutional Class, and IS Class. The Large-Cap Growth Fund currently offers the IS Class shares (previously known as Class R6, prior to April 16, 2021), which commenced operations on May 2, 2016, the Institutional Class shares which commenced operations on February 3, 1994, and the Investor Class shares (previously known as Class A shares before April 16, 2021), which commenced operations on December 3, 1993. Effective April 16, 2021, the Large-Cap Growth Fund ceased offering Class C and Class R shares. The remaining Class C and Class R shares were converted to Investor Class shares at the close of business on April 16, 2021. The SMID-Cap Growth Fund currently offers the IS Class shares, which commenced operations on December 1, 2003, the Institutional Class shares which commenced operations on September 16, 2016, and the Investor Class shares, which commenced operations on September 19, 2016. Each class of shares has identical rights and privileges except with respect to Shareholder Servicing Plan fees, 12b-1 fees, and voting rights on matters affecting a single share class. Institutional Class shares are subject to a maximum 0.10% Shareholder Servicing Plan fee. Investor Class shares are subject to a 0.25% Rule 12b-1 distribution and servicing fee and a maximum 0.10% Shareholder Servicing Plan fee. The Funds may issue an unlimited number of shares of beneficial interest with no par value.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds in preparation of its financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP").

Security Valuation – All investments in securities are recorded at their estimated fair value, as described in Note 3.

Federal Income Taxes – The Funds comply with the requirements of subchapter M of the Internal Revenue Code of 1986, as amended, necessary to qualify as regulated investment companies and distribute substantially all net taxable investment income and net realized gains to shareholders in a manner which results in no tax cost to the Funds. Therefore, no federal income or excise tax provision is required. As of and during the period ended April 30, 2025, the Funds did not have any tax positions that did not meet the "more-likely-than-not" threshold of being sustained by the applicable tax authority. As of and during the period ended April 30, 2025, the Funds did not have liabilities for any unrecognized tax benefits. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statement of Operations. As of and during the period ended April 30, 2025, the Funds did not incur any interest or penalties. The Funds are not subject to examination by U.S. tax authorities for tax years prior to the fiscal year ended October 31, 2021.

Security Transactions, Investment Income and Distributions – The Funds follow industry practice and record security transactions on the trade date. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Funds' understanding of the applicable country's tax rules and regulations. Discounts and premiums on securities purchased are amortized over the expected life of the respective securities using the constant yield method.

The Funds distribute substantially all net investment income and net realized capital gains, if any, at least annually. Distributions to shareholders are recorded on the ex-dividend date. The treatment for financial reporting purposes of distributions made to shareholders during the year from net investment income or net realized capital gains may differ from their treatment for federal income tax purposes. These differences are caused primarily by differences in the timing of the recognition of certain components of income, expense, or realized capital gain for federal income tax purposes.

Where such differences are permanent in nature, GAAP requires that they be reclassified in the components of the net assets based on their ultimate characterization for federal income tax purposes. Any such reclassifications will have no effect on net assets, results of operations or net asset value ("NAV") per share of the Funds.

Foreign Currency – Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Funds do not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments and translations of foreign currency. The Funds report net realized foreign exchange gains or losses that arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Funds' books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the fair values of assets and liabilities, other than investments in securities at fiscal period end, resulting from changes in exchange rates.

Allocation of Income, Expenses and Gains/Losses – Income, expenses (other than those deemed attributable to a specific share class), and gains and losses of the Funds are allocated daily to each class of shares based upon the ratio of net assets represented by each class as a percentage of the net assets of each Fund. Expenses deemed directly attributable to a class of shares are recorded by the specific class. Most Fund expenses are allocated by class based on relative net assets. Shareholder Servicing Plan fees are expensed at an annual rate up to 0.10% of Institutional Class and Investor Class shares and 12b-1 fees are expensed at annual rate of 0.25% of average daily net assets of Investor Class shares (See Note 5). Expenses associated with a specific Fund in the Trust are charged to that Fund. Common Trust expenses are typically allocated evenly between the Funds of the Trust, or by other equitable means.

Securities Litigation – Proceeds received from securities litigation are recorded for a reduction of cost if the Fund holds the security. If a Fund does not still hold the security, then proceeds received from securities litigation are recorded as a realized gain.

Use of Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. SECURITIES VALUATION

The Funds have adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion in changes in valuation techniques and related inputs during the period and expanded disclosure of valuation Levels for major security types. These inputs are summarized in the three broad Levels listed below:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

JACKSON SQUARE FUNDS NOTES TO THE FINANCIAL STATEMENTS April 30, 2025 (Unaudited) (Continued)

Following is a description of the valuation techniques applied to each Fund's major categories of assets and liabilities measured at fair value on a recurring basis. Each Fund's investments are carried at fair value.

Equity Securities – Equity securities that are primarily traded on a national securities exchange shall be valued at the last sale price on the exchange on which they are primarily traded on the day of valuation or, if there has been no sale on such day, at the mean between the bid and ask prices. Securities traded primarily in the Nasdaq Global Market System for which market quotations are readily available shall be valued using the Nasdaq Official Closing Price ("NOCP"). If the NOCP is not available, such securities shall be valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and ask prices. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. If the market for a particular security is not active, and the mean between bid and ask prices is used, these securities are categorized in Level 2 of the fair value hierarchy.

In the case of foreign securities, the occurrence of events after the close of foreign markets, but prior to the time the Funds' NAV is calculated will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. The Fund will value foreign securities at fair value, taking into account such events in calculating the NAV. In such cases, use of fair valuation can reduce an investor's ability to seek to profit by estimating the Funds' NAV in advance of the time the NAV is calculated. All foreign securities, with the exception of Canadian securities and those listed on a U.S. exchange, have an adjustment applied to their trade price and therefore are automatically deemed to be in Level 2 of the fair value hierarchy.

Cash & Cash Equivalents – Cash and cash equivalents include short-term, liquid investments with an original maturity of three months or less. These balances may exceed FDIC insured limits.

Short-Term Investments – Investments in other mutual funds, including money market funds, are valued at their NAV per share. Deposit accounts are valued at acquisition cost, which approximates fair value. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy.

U.S. government securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. These securities are valued principally using dealer quotations. U.S. government securities are categorized in Level 2 of the fair value hierarchy depending on the inputs used and market activity levels for specific securities.

The Board of Trustees (the "Board") has adopted a pricing and valuation policy for use by the Funds and their Valuation Designee (as defined below) in calculating the Funds' NAV. Pursuant to Rule 2a-5 under the 1940 Act, the Funds have designated Jackson Square Partners, LLC (the "Adviser") as its "Valuation Designee" to perform all the fair value determinations as well as to perform all of the responsibilities that may be performed by the Valuation Designee in accordance with Rule 2a-5. The Valuation Designee is authorized to make all necessary determinations of the fair values of portfolio securities and other assets for which market quotations are not readily available or if it is deemed that the prices obtained from brokers and dealers, or independent pricing services are unreliable.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following tables are a summary of the inputs used to value each Fund's securities as of April 30, 2025:

STATEMENT REGARDING BASIS FOR APPROVAL OF INVESTMENT ADVISORY CONTRACT

At the regular meeting of the Board of Trustees of Managed Portfolio Series ("Trust") on February 19-20, 2025, the Trust's Board of Trustees ("Board"), including all of the trustees ("Trustees") who are not "interested persons" of the Trust, as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended ("Independent Trustees"), considered and approved the continuation of the Investment Advisory Agreement ("Investment Advisory Agreement") between the Trust and Jackson Square Partners, LLC ("JSP" or the "Adviser") regarding the Jackson Square Large-Cap Growth Fund and the Jackson Square SMID-Cap Growth Fund (each a "Fund" or collectively, the "Funds") for another annual term.

Prior to the meeting and at a meeting held on January 7, 2025, the Trustees received and considered information from JSP and the Trust's administrator designed to provide the Trustees with the information necessary to evaluate the continuance of the Investment Advisory Agreement ("Support Materials"). Before voting to approve the continuance of the Investment Advisory Agreement, the Trustees reviewed the Support Materials with Trust management and with counsel to the Independent Trustees, and received a memorandum and advice from such counsel discussing the legal standards for their consideration of the renewal of the Investment Advisory Agreement. This information, together with the information provided to the Board throughout the course of the year, formed the primary (but not exclusive) basis for the Board's determinations.

In determining whether to continue the Investment Advisory Agreement, the Trustees considered all factors they believed relevant, including the following with respect to each Fund: (1) the nature, extent, and quality of the services provided by JSP with respect to the Fund; (2) the Fund's historical performance and the performance of other investment accounts managed by JSP; (3) the costs of the services provided by JSP and the profits realized by JSP from services rendered to the Fund; (4) comparative fee and expense data for the Fund and other investment companies with similar investment objectives; (5) the extent to which economies of scale may be realized as the Fund grows, and whether the advisory fee for the Fund reflects such economies of scale for the Fund's benefit; and (6) other benefits to JSP resulting from its relationship with the Fund. In their deliberations, the Trustees weighed to varying degrees the importance of the information provided to them and did not identify any particular information that was all-important or controlling. The Board considered this information and made its determinations for each Fund separately and independently of the other Fund.

ACKSON SQUARE FUNDS ADDITIONAL INFORMATION April 30, 2025 (Unaudited) (Continued)

Based upon the information provided to the Board throughout the course of the year, including a presentation to the Board by representatives of JSP, and the Support Materials, the Board concluded that the overall arrangements between the Trust and JSP set forth in the Investment Advisory Agreement, as it relates to each Fund, continue to be fair and reasonable in light of the services that JSP performs, the investment advisory fees that each Fund pays, and such other matters as the Trustees considered relevant in the exercise of their reasonable business judgment. The material factors and conclusions that formed the basis of the Trustees' determination to approve the continuation of the Investment Advisory Agreement, as it relates to each Fund, are summarized below.

Nature, Extent and Quality of Services Provided. The Trustees considered the scope of services that JSP provides under the Investment Advisory Agreement with respect to each Fund, noting that such services include, but are not limited to, the following: (1) investing the Fund's assets consistent with the Fund's investment objective and investment policies; (2) determining the portfolio securities to be purchased, sold or otherwise disposed of, and the timing of such transactions; (3) voting proxies, if any, with respect to the Fund's portfolio securities; (4) maintaining the required books and records for transactions that JSP effects on behalf of the Fund; (5) selecting broker-dealers to execute orders on behalf of the Fund; and (6) monitoring and maintaining the Fund's compliance with policies and procedures of the Trust and with applicable securities laws. The Trustees reviewed JSP's financial statements and concluded that JSP had sufficient resources to support the Funds' operations, including the portfolio management team's implementation of each Fund's principal investment strategies. The Trustees concluded that they were satisfied with the nature, extent and quality of services that JSP provides to each Fund under the Investment Advisory Agreement.

Fund Historical Performance and the Overall Performance of JSP. In assessing the quality of the portfolio management delivered by JSP, the Trustees considered the short-term and long-term performance of each Fund on both an absolute basis and in comparison to an appropriate benchmark index, each Fund's Morningstar category ("Category") as well as a smaller sub-set of peer funds ("Cohort"), and each Fund's respective composite of separate accounts that JSP manages utilizing a similar investment strategy. When comparing each Fund's performance against its respective Category and Cohort, the Trustees took into account that the investment objective and strategies of the Fund, as well as the Fund's level of risk tolerance, may differ significantly from the funds in the Category and Cohort.

- Jackson Square Large-Cap Growth Fund. The Trustees noted the Fund had underperformed both the Category and Cohort averages for the one-year, three-year, five-year and ten-year periods ended September 30, 2024. The Trustees also noted that the Fund had underperformed its benchmark index for all periods presented. The Trustees also observed that the Fund's performance was generally consistent with the performance of a composite of JSP's similarly managed accounts for the year-to-date and one-year periods, and that the Fund had outperformed for the three-year and five-year periods. The Trustees noted that the Fund's performance included performance of a predecessor fund that was reorganized into to the Fund.
- Jackson Square SMID-Cap Growth Fund. The Trustees noted that the Fund had underperformed both the Category and Cohort averages for all periods presented in the materials. The Trustees also noted that the Fund had underperformed its benchmark index over all periods reviewed. The Trustees considered that the Fund had achieved positive total returns over longer term periods, such as the five-year, ten-year and since inception periods ended September 30, 2024, and also observed that the Fund's performance was generally consistent with the performance of a composite of JSP's similarly managed accounts over all relevant time periods. The Trustees noted that the Fund's performance of a predecessor fund that was reorganized into to the Fund.

Cost of Advisory Services and Profitability. The Trustees considered the annual advisory fee that each Fund pays to JSP under the Investment Advisory Agreement, as well as JSP's profitability from services that it rendered to each Fund during the 12-month period ended September 30, 2024. The Trustees noted favorably that JSP had agreed to continue the expense limitation agreement under which JSP contractually agreed to reduce its advisory fees and, if necessary, reimburse each Fund for operating expenses, as specified in the Funds' prospectus. The Trustees observed that JSP had waived a portion of its management fee with respect to the Jackson Square Large-Cap Growth Fund over the Fund's most recent fiscal year, and had recouped a small portion of previously waived fees waived and expenses paid with respect to the Jackson Square SMID-Cap Growth Fund. The Trustees then considered that the management fee JSP charges to each Fund is generally within the range of fees charged to separately managed accounts with similar investment strategies to the corresponding Fund, in some cases depending on the size of the separately managed

account. The Trustees took into account that JSP has additional responsibilities and costs with respect to the Funds as registered mutual funds when compared to JSP's separately managed accounts. The Trustees considered the reasonableness of JSP's profits from its service relationship with the Funds, noting that the JSP's service relationship with the Jackson Square Large Cap Growth Fund has not been profitable for the 12-month period ended September 30, 2024. The Trustees considered the reasonableness of JSP's profits from its service relationship with Service relationship with Jackson Square SMID-Cap Growth Fund.

Comparative Fee and Expense Data. The Trustees considered a comparative analysis of contractual expenses borne by the Funds and those of funds in the corresponding Category and Cohort as of September 30, 2024. The Trustees noted:

- Jackson Square Large-Cap Growth Fund. The Fund's management fee was below the Category and Cohort averages and the Fund's total expenses (before and after waivers and expense reimbursements) were below the Cohort and Category averages. The Trustees noted the Investor Class has a shareholder servicing fee and a Rule 12b-1 fee, which is not necessarily the case for the funds included in the Category and Cohort.
- Jackson Square SMID-Cap Growth Fund. The Fund's management fee was below the Cohort average but above the Category average. The net expenses (after waivers and expense reimbursements) of the Fund were above the Cohort average but below the Category average, while the total expenses (before waivers and expense reimbursements) were below the Category and Cohort averages. The Trustees noted the Investor Class has a shareholder servicing fee and a Rule 12b-1 fee, which is not necessarily the case for the funds included in the Category and Cohort.

While recognizing that it is difficult to compare advisory fees because the scope of advisory services provided may vary from one investment adviser to another, the Trustees concluded that JSP's advisory fee with respect to each Fund continues to be reasonable.

Economies of Scale. The Trustees considered whether the Funds would benefit from any economies of scale, noting that the investment advisory fee for the Jackson Square Large-Cap Growth Fund does contain breakpoints while the investment advisory fee for the Jackson Square SMID-Cap Growth Fund does not contain breakpoints. The Trustees took into account the fact that JSP had agreed to consider breakpoints in the future for the Jackson Square SMID-Cap Growth Fund. The Trustees agreed to revisit the issue in the future as circumstances change and asset levels increase.

Other Benefits. The Trustees considered the direct and indirect benefits that could be realized by the Adviser and its affiliates from the Adviser's relationship with the Funds. The Trustees considered that JSP realizes a soft dollar benefit with respect to portfolio transactions of the Funds. The Trustees noted that JSP does not use affiliated brokers to execute the portfolio transactions of the Funds. While the Trustees noted that the Funds utilize Rule 12b-1 fees to pay for shareholder and distribution services related to Investor Class shareholders of the Funds, the Trustees also observed that JSP was incurring its own distribution expenses on behalf of the Funds. The Trustees considered that JSP may receive some form of reputational benefit from services rendered to the Funds, but that such benefits are immaterial and cannot otherwise be quantified. The Trustees concluded that JSP does not receive any additional material benefits from its relationship with the Funds.
